Think Future has become recently our duty to next generations.

AF Renewables was established to care about future, to **think future** and to impact on it. The company believes that the renewables is a future of the energy source and allows to improve our environment and a quality of our life.

We define ourselves as a cameral group of professional who provides expert advice in a particular area such as engineering, marketing, business building and business relations.

As deliverables our Clients are provided not only with feedbacks and reports, but also with safety, loyalty, confidentiality, quality guarantee and transparency.

...Engineering

We provide to developers, financing institutions, investors and other consultancy companies a range of services tailored individually to their needs. We can appear in the project at every stage of its life-time cycle ; development, construction or operation.

We offer technical services such as feasibilities studies, layout design, measurement campaign design, wind data quality checking, wind or solar resources analyst and energy assessment, environmental impact studies, photomontage, visualization, on-site inspections, operational data monitoring, technical due diligence and wide more.

Our experience learnt us, that each project is unique and that rush and short-term savings are not in line with long-term project profitability.

...Business Development

The company can provide an exclusive support in leading and building relationship and customer contacts. The company staff spend contracted time identifying and creating business opportunities on defined by the client markets to develop

Biuro Karier Politechniki Częstochowskiej

order intake and direct project work.

Furthermore we can provide to the Client support in monitoring the market status and future changes to initiate and develop the Client towards a better market position. Strategic analyst allows the Client to drive decision towards a more sustainable and profitable service portfolio and to make a well-informed decision to focus on specific customers and market segments and develop the required skills and tools for the services of the future portfolio.

...Staffing

We do believe that skilled and engaged team is a key success of each project. If you actively seeking staff for your short-term or long-term project we are happy to provide you with a professional help.

The company owns a database of well experienced engineers interested in a new and exciting business possibilities. We are able to connect the Client with them in order to create satisfied work cooperation for both sides.
